# Land Acknowledgment

We acknowledge that the City of Pickering resides on land within the Treaty and traditional territory of the Mississaugas of Scugog Island First Nation and Williams Treaties signatories of the Mississauga and Chippewa Nations. This includes Alderville First Nation, Chippewas of Beausoleil First Nation, Chippewas of Georgina Island First Nation, Chippewas of Rama First Nation, Curve Lake First Nation, Hiawatha First Nation and the Mississaugas of Scugog Island First Nation. Pickering is also home to many Indigenous persons and communities who represent other diverse, distinct, and autonomous Indigenous nations.

This acknowledgement reminds us of our responsibilities to our relationships with the First Peoples of Canada, and to the ancestral lands on which we learn, share, work, and live.

Equity, diversity, and inclusion practices and policies are often conflated with Indigenization, Decolonization and Reconciliation. It is important to recognize that, though they share common ground, Indigenization, Decolonization, and Reconciliation require distinct and focused efforts that address settler colonialism, honour Indigenous self-determination and sovereignty, and advance reconciliation as defined by the Truth and Reconciliation Commission of Canada.

Indigenous peoples have lived on Turtle Island, the land also referred to as North America, as stewards of the lands and waters since time immemorial with their own unique cultures, identities, traditions, languages and institutions. As the City of Pickering advances Equity, Diversity and Inclusion, we honour all Indigenous Peoples as rights holders and commit to building relationships of trust, respect, reciprocity, and friendship.

By actively engaging in relationship building, challenging colonial structures, and centering Indigenous knowledge and perspectives, we are reminded of our roots as Treaty peoples with responsibilities toward one another, protecting and preserving the safety, well-being, and inherent dignity of all people wherever this may be challenged.

# Introduction

The City of Pickering is proud to present this inaugural annual report of Equity, Diversity and Inclusion initiatives from 2023, highlighting community events, educational workshops, advocacy campaigns, public installations, and the many partnerships and collaborations that made them possible throughout the year.

This vast collection of initiatives represents the City's ongoing efforts to integrate Equity, Diversity and Inclusion into the fabric of our organization and community, a journey that has been marked by several major achievements including:

- Council's unanimous endorsement of the development of a multi-year Equity, Diversity, and Inclusion Strategy in August 2020;
- the introduction of dedicated Equity, Diversity, and Inclusion staff led by a Senior Advisor and Community Engagement Coordinator;
- the establishment of community advisory groups such as the Pickering Anti-Black Racism Taskforce (PABRT), the Indigenous Relationship Building Circle and the Equity, Diversity, and Inclusion Strategy Community Working Group;
- the adoption of the City's first ever Corporate Strategic Plan which identifies a distinct commitment to Equity, Diversity, and Inclusion throughout the functions and operations of the municipality; and,
- the development of a 10-year Equity, Diversity, and Inclusion Strategy, to be launched in 2024.

Although much has been achieved, we know that much more needs to be done. The initiatives in this report ultimately demonstrate our commitments in action – from marching together at the Pride Parade in support of 2SLGBTQIA+ communities, to gathering in Esplanade Park to honour Indigenous children and families on Orange Shirt Day, to our celebrations of Black Excellence and Black Joy. These events among many others have not only raised awareness of social issues, but also inspired understanding, engagement, advocacy, and positive change throughout the community.

As we prepare for the launch of the Equity, Diversity, and Inclusion Strategy, we know we have a challenging and exciting journey ahead of us, and we are confident in the strength of our community in undertaking this critical work together.

# Learning and Education

Creating intentional learning opportunities is the first step in integrating equity, diversity, and inclusion (EDI) within all facets of the workplace and broader community. Focusing on areas such as anti-racism, decolonization, reconciliation, gender diversity, accessibility, and social justice, aims to challenge our own unconscious biases, address systemic inequalities and enhance cultural understanding.

Addressing these topics helps to dismantle systemic barriers that exist within the public sector. This knowledge can empower staff to challenge and change discriminatory practices, policies, and procedures. It allows individuals to develop a deeper appreciation for the diverse perspectives, experiences, and the contributions of their colleagues and the communities they serve. This understanding fosters collaboration, empathy, and respect, creating a more inclusive and equitable City that serves the needs of all communities.

## Lunch & Learn Series

## Staff Book Club

In collaboration with the Pickering Public Library, the EDI Team brought a new learning opportunity to colleagues through a staff book club. Participants are provided with the chosen novel to read independently, and later gather for a lunch & learn discussion. Coinciding with National Indigenous History Month, staff read *Five Little Indians* by Michelle Good and came together to discuss, dissect, and share their thoughts on the novel.

## EDI Community Working Group

The EDI Strategy Community Working Group consists of 12 members who are residents of Pickering and represent diverse communities, interests, and needs. Members were selected based on their residence within Pickering and affiliations with the City of Pickering and/or Pickering Public Library through various advisory groups and community partnerships. This includes representation from PFLAG Durham Region, Dedicated Advocacy Resource Supports (DARS) Community Outreach, the Pickering Anti-Black Racism Taskforce, the Pickering Public Library Anti-Black Racism Working Group, the Accessibility Advisory Committee, the Pickering Public Library Teen Advisory Group, and the Indigenous Relationship Building Circle, among others. As part of their commitment to the working group, members participated in multiple information sessions and workshops that provided opportunities for meaningful discussion and strategic visioning. These consultations were integral in aiding the development of focus areas outlined in the City's EDI Strategy.

## Education Cards

Education cards were first developed in 2021 as a tool for community engagement and learning. In 2023, the EDI Team expanded this collection to acknowledge days of significance including, International Transgender Day of Visibility, National Indigenous History Month, National Truth and Reconciliation Day, and Emancipation Day. Education cards are used to facilitate the dissemination of information and resources, inspire individuals to take action, and promote a culture of continuous learning, engagement, and collaboration towards creating positive social change. These cards were designed to provide concise and impactful information on various topics while including important community resources for individuals seeking knowledge, understanding, and support.

# Pickering Anti-Black Racism Taskforce

Established in January 2021, the Pickering Anti-Black Racism Taskforce (PABRT) is a Council appointed body of community members, whose mandate is to address and combat anti-Black racism in all its forms within the City of Pickering and broader community. The PABRT members actively work to dismantle systemic barriers and discriminatory practices that disproportionately affect Black communities, while aiming to increase understanding and awareness of the historical and contemporary issues faced by Black individuals. The Pickering Anti-Black Racism Taskforce plays a vital role in fostering dialogue, advocating for change, and promoting social justice within the community. Since 2021, the PABRT has engaged the community in several successful events including:

- 416 Meets 905, a youth open mic night in collaboration with Shakkoi and RISE Edutainment;
- The Powerfully Informed Initiative, a series of events aiming to support awareness, education and engagement around municipal elections, and promote civic engagement among Black residents more broadly;
- Reaching Higher, an event to support Black youth in their pursuit of post-secondary education; and,
- the 1st Annual Black Joy Holiday Market in collaboration with Durham Family Cultural Centre (DFCC), an event highlighting and supporting local Black-owned businesses.

The first PABRT term completed their appointments in February 2023 and new taskforce members were appointed on March 27, 2023. # Indigenous Relationship Building Action Plan

In 2020, the City adopted a multi-year Indigenous Relationship Building Action plan that focused on establishing meaningful and intentional relationships with diverse Indigenous communities. Responding to the Truth and Reconciliation Commission of Canada Call to Action 14 on "...the preservation, revitalization, and strengthening of Aboriginal languages and cultures...", and Call to Action 79 calling on government "...in collaboration with Survivors, Aboriginal organizations, and the arts community, to develop a reconciliation framework for Canadian heritage and commemoration," the Indigenous Relationship Building Action Plan supported many essential community events and initiatives in 2022 including:
